The discreet **Video Wall Solution**

The iolite is a discreet solution for small to medium-scale video walls.

The self-contained iolite systems fit perfectly into retail, public and corporate environments and offer incredible flexibility.

iolite

hi-tech **Boardrooms**

Video walls with presentation displays from multiple locations and access to conferencing facilities

- Small and quiet for when space is limited
- Multiple capture cards can be used to address collaboration requirements
- Use SQX technology to aid full-scale video conferences with collaborative interaction

professional Reception Areas

Reception areas, information screens, corporate advertising and welcome messaging

- Small enough to store within or under a reception desk
- Captured or local video playback
- Combine with SQX technology to deliver remote control

perfect **Retail** Display systems

In-store digital advertising & remote catalogs for fashion, technology or fast-food outlets

- Easily fits under a counter or behind a display space
- Can be used for capture or local video playback
- Decode and share content to multiple locations simultaneously with SQX technology

Datapath, engineering the **world's best** **visual solutions**

At Datapath, we design and produce high-quality wall controllers that allow for quick and easy display wall setup.

Our iolite controllers are sold around the world through our global distribution network.

Display high-quality content from almost any source in multiple locations, collaboratively.

iolite 600 - High quality video wall controller

The iolite 600 offers the chance to combine up to six capture or graphic cards in a quiet, small form - perfect for use in corporate and retail environments.

iolite 12i - Compact wall controller with 12 integrated outputs

Offering our smallest form factor, users have either three 4K or 12 HD outputs to create highly visual video wall displays.
